To whom in may Concern,

Re: Kogarah City Council lighting Retrofit

Easily Green were the successful contractor after a request for Quotation was advertised for the retrofit of several Council car parks and buildings.

The submission from Easily Green was selected for their value for money, their selection of products and warranties and their relevant experience in the retrofit of lights at various types of buildings.

The work itself consisted of the retrofit of more than 1,200 lights at 7 different locations including public car parks, our depot, library and kindergarten. The work was carried out in a timely manner (over 10 days) with professionalism shown and a proactive nature when faced with circumstances out of their control.

All work was carried out in a professional manner, Easily Green were reliable and contactable regarding the work completed.

Easily Green made all representations required by IPART under the NSW Energy Savings scheme on our behalf and worked honestly and with integrity.

I would be happy to recommend them for a similar scope of work.

Yours sincerely

Fiona Stock
Manager of Sustainability and Waste
